New-York is the best place to dispose of thorough-bred horses of all classes and descriptions, as well as ther live stock. It has been represented to Mr. Easton by influential breeders and owners that it is imperative upon his company to build a first-class anent establishment in New-York, consisting of ose boxes, stalls, and a commodious sale arena, to the future demand. The company, in com pliance with these views, has determined to build cuch a place in New-York, which will be ready for occurancy by the beginning of next year. Mr. Easton's vast experience, both in America and England, will insure the stabling and its surroundings being of the most suitable kind in every way, with all modern improvements. It is the intention of the company to meet the requirements of the most fastidious and largest breeders and owners, by creeting a building containing at least 100 loose boxes for yearings, etc., and as many stalls as may be required. pliance with these views, has determined to build

quired.

Mr. Easton's great auction sale of race horses to-day will take place in the Central Park Riding Academy. Iffly-moth-st. and Seventh-ave. No gale of the present year has aroused wider interest. With the disposal of his entire stable of thoroughbreds. Montana Morrissey retires from the turf. French Park, the famous unbeaten son of King Ban and Lou Plac, goes under the hammer with a reputation that will attract to the Academy a larger throng of horsemen than witnessed the sale of King Thomas at the Madison Square Carden, King Thomas at the Madison Square Carden, King Thomas reputation that will attract to the Academy a larger throng of horsemen than witnessed the sale of King Thomas at the Madison Square Garden. King Thomas was an untried yearling. In French Park we have a public performer of the highest class, whose record is known throughout the length and breadth of the land. Good judges have said of him that he has the finest action ever seen in the modern racing machine which goes under the name of thoroughbred. All the highest qualities of our most perfect animals seem to unite in him. Had this magnificent youngster gone to the post on Puturity day the greatest prize of the American tof yound not have fallen to Proctor Knott. But French Park tood on a stone and incurred a temporary lameness which prevented a sufficient preparation for the the defeat of the Western wonder. King Thomas fetched \$38,000 at Mr. Haggin's saic, and in less than twenty-four hours was immed over to Senator George Hearst, of California, for \$40,000. The youngster was bought simply for speculation, and a neat profit of \$2,000 was realized. Does Senator Hearst want French Park? And, if so, has his desire to posses the colt come to the cars of any firm of book makers? The value set on King Thomas is entirely fetitious. He is worth about \$10,000. French Park is worth \$25,000.

Mr. Morrissey's entire stable outfit, comprising saddles, bridles, clothing, cic., will be sold with his horses. Drafts from the Preakness and Madison stabes and from those of Walter Gratz and other well-known turfmen, including upward of 100 horses in training, will be sold at the same time. Among the yearlings to be disposed of are those of the Algeria, Ferncliffe and Evoksby stude.

The horses were on exhibition yesterday and many people availed themselves of the opportunity to look them over and pass upon their merits. The sale begins this morning at 10:30.

THE LOUISVILLE MEETING.

Louisville, Kr., Sept. 16.—The stables of the Louis-offle Jockey Club are rapidly filling up for the meetwhich begins next Tuesday. Fourteen car-loads horses will arrive to-morrow from Chicago, all from Washington Park meeting, and many from the West Side Park, while Latonia and Lexington will complete the largest number of horses ever gathered ogether on any one track in the West during a fall meeting. The owners of Galen have signified their willingness to run Froctor Knott a dash of five-eighths of a mile out of the straight course for a purse of \$1,500; the race to be on the day following the regular meeting, and if Bryant will accept a great card will be given by the club. There are fully 150 horses that were turned out in the spring and will therefore be a new quantity in the betting and creates additional interest.

New-Brunswick, N. J., people are, according to their opinions, either praising or condemning the sermon preached last evening by the Rev. M. V. McDuffle, the young pastor of the Remsen Avenue Baptist Church of that place. The sermon was the third of a series which he was led to begin by the remarkable series of social scandals that have been the talk of the town for The exposures have included business and professional men, church members and officials, and on account of his alleged relations with a woman the Mayor, William S. Strong, left the town. It is not known where he is and nothing is heard from him, although a vigorous demand has been made on all sides

Mr. McDuffle will preach next Sunday on" The Model Mayor; his relations to the immorality and impurity of a community." His talk has night was on the relations of physicians and druggists to immorality, and he gave some statistics and statements obtained from reputable dectors. A week ago he preached on the relations of the lawyers to the immorality of the community. The sermons have created a considerable sensation in New-Brunswick, and though the minister has been condemned by some for his sensationalism, many have commended him.

BASEBALL IN THE RAIN.

POOR PLAYING OF THE ATHLETIC CLUB. AN EAST VICTIM FOR THE BROOKLYN TEAM-

RECORDS OF THE CLUBS. About the only redeeming feature in the of baseball at Ridgewood Park, Brooklyn, yesterday, between the Brooklyn and Athletic nines was its It could hardly be called a match, as the Brooklyn men outplayed their opponents and won with ease. There is no accounting for some people's tastes, however, for 7,300 sat out in the drizzling rain and yelled in the most joyous manner upon the slightest provocation. The Athletics must do much better work if they expect to hold second place in the Association race. Weyling had little force and less effect in his pitching, and after stumbling through effect in his pitching, and after stumming through six innings he sensibly retired into centre field and allowed Bauer to finish the game. The Brooklyn men did nobly, playing with a dash and determina-tion that reminded the enlookers of their brilliant

efforts earlier in the season. A "livelier" ball than usual was used for the first time, the Association managers having decided that that was the most sensible way of encouraging heavier batting. The two little basehits going to the Athletics' record were credited to Bauer. Burns did not as he had gone to attend the funeral of his Burns did not play, who died on Saturday. The home club yesterday released Holbert unconditionally. Holbert can sign where he pleases, and will not be out of a job long.

The New-York nine still holds a substantial advantage in the League race in spite of its stumbling record of losing five of its six games played during the last week. The local nine now has only about twenty last week. The local nine now has only about twenty games to play before the pennant season will close. There is a chance of some other nine winning the championship, but that chance is meagre. The Chicago nine is second, five victories and eight defeats behind New-York. The Detroit nine has five less victories than Chicago and one mere defeat, and its chances for finishing second in the race are decidedly better than are Chicago's chances for capturing the coveted trophy. A LIVELY TIME AT CASTLE GARDEN ENDS IN FAVOR OF THE POOL LINES.

the 649 steerage passengers who arrived on the steam-ship Hekla, of the Thingvalla Line. Nearly all of them the Thingvalla Company, which has a contract with the Ontario and Weste,n Railroad Company exclusively. The vessel reached her dock early yesterday and the steerage passengers were taken to Castle Garden on a barge. C. E. Lambert, General Eastern Passenger Agent of the West Shore Railroad, by which under an arrangement with the association of pool lines all steerage passengers arriving yesterday were to be forwarded to Western destinations, was on board of the barge with four assistants, and on the way to Castle Garden they exchanged the Thingvalla orders of nearly all the passengers for orders on the pool

When they had reached the Garden, passenger agent Lindgarten, of the Thingvalla Line, and General Eastern Agent Abbott, of the Ontario and Western Railroad, discovered that the change had been made and immediately set to work to secure the passenger for the Ontario and Western route. The immigrants were hustled in a lively manner in the contest beween the r.val agents. Commissioners Stephenson and

the rival agents. Commissioners Stephenson and Starr arriving at this juncture, put a stop to this scene and decided that the immigrants must travel on the road on which they had tickets when they arrived at the Garden. This was a trumph for the pool, as three-quarters of the passengers held their orders.

Mr. Abbott stated that the Thingvalla and the Guion companies had told the pool lines over a month ago that they would attend to the railroad transportation of their own passengers. Offers had been made on Friday by the opposition to carry the passengers of the Hekla at reduced raies, which were rejected, as was also an offer to transport them free. Mr. Lambert said he had a prior arrangement with the Chicago agents of the Thingvalla Company in regard to carrying the Hekla's passengers. This was denied by Mr. Abbott. The controversy will probably be taken to the courts for settlement.

QUARRELLING OVER NAVY YARD PATRONAGE. Congressman Timothy Jeremiah Campbell will probably obtain a leave of absence from the House, upon the excuse of "imperative and important business," to-day and make a flying trip to Bar Harbor, thence to the Brooklyn Navy Yard. Richard Swanton, one of the Congressman's "constituoents," was discharged by Paymaster Loomis on Saturday upon the order of Rear Admiral Gherardi, and a letter was immediately written to the Congressman that the only cause for Swanton's discharge was that "Boss" McLaughlin requested it. The member from the VIIIth has some rights at the Navy Yard which he asserts must be respected, and when his prerequisites were interfered with by the Brooklyn Boss a year ago, he declared that he "would introduce a bill to move the Navy Yard to Port Morris, that it had outlived its usefulness in its present location, and it was nothing but a place for grah-all politicians; that the system of naval patronage was arranged after Secretary Whitney's own plans, but it is a — poor one, notwithstanding. But there was a compromise, he lived to see Chief Engineer Kelly detached and sent to see because that officer dared to oppose him; he gloated over Pay Directon Stevenson's suspension after his quarrel with that officer; and he withheld his resolution to have the Navy Yard removed. that he "would introduce a bill to move the Navy

Troy, Sept. 16 (Special).—A month ago the Central Labor Union of New-York called a State Convention of labor organizations here to take measures for the repeal or modification of the conspiracy laws. These laws have been used to prevent boycotting. Morrison and Edward Finkelstein, of the Central Labor Union, came to Albany when the Legislature was holding its extra session in July and asked Governor Hill to suggest to the Legislature the repeal of the conspiracy laws. The Governor wrote a cautious message to the Legislature on the subject. The Legislature saw that the Governor's purpose writing the message was merely demagogic and paid no attention to it. Now it is said that William H. no attention to it. Now it is said that William H. Murtha, chairman of the Democratic Executive Committee, has obtained control of the convention, which will meet here to morrow, and that it will be used to aid D. B. Hill in his canvass.

Mr. Hill and his frends see that his veto of the Saxton Electoral Reform bill has allenated from him thousands of workingmen and that an effort must be made to cover this loss by persuading other thousands of workingmen that Mr. Hill is their friend.

FAITH AND NEWSPAPERS STILL IN HARMONY. The faith cure people of the Mount Zion Sanctuary held services in the sanctuary at the foot of Chapel-Jersey City, yesterday afternoon. The services were conducted by Sister Jackson and Brothers Jackson and Hancock Elizabeth Wardell, of Avenue E, Greenvillo; Mary Jane Stockwell, of No. 38 Van Syckic-ave., Brooklyn; Melinda Frost, of Poughkeepste, and David Smith, of Brooklyn, were baptized. The usual en-thusiasm was displayed at the services. Several persons gave testimony of wonderful cures. Most of them had given the same testimony at previous services. Pollecman Perry, of Jersey City, one of the most ardent of the believers, made a violent attack upon the newspapers, but Brother Jackson afterward apologized for him privately and said that the newspapers had been of wonderful service to them.

THE BEGINNING OF A NEW PASTORATE. The Rev. Dr. Charles L. Thompson, who recently ecepted a call to the pastorate of the Madison Avenue Presbyterian Church, preached his introductory sermon yesterday. The congregation was large front of the pulpit and platform was a large bank of tropical plants and flowers. The preacher said that the propelling force of modern civilization was cen the propelling force of modern civilization was con-tred chiefly in the cities, and mentioned as an illus-tration of modern genius the life and works of Pro-fesser Proctor, who, the speaker said, had done much for the world and science. Regarding himself the preacher said that he would preach the gospel as it was preached by St. Paul. The condition of life was ever changing, but the spiritual truths were the same always. What he proposed to do was to preach the Gospel pure and unadulterated. Dr. Thompson in conclusion spoke hopefully of the good result of the work he had just begun in his new field of labor.

TO REPAIR A FAMOUS OLD WARSHIP

Those who have treasured up a patriotic affection for the old war-vessel Kearsarge, the vessel that sunk the privateer Alabama off Cherbourg, France, on June 19, 1864, will be glad to learn that the Navy Department has at last decided not to lay her up for worms to destroy, or the junk dealers to break up It was reported that she could not be repaired within the statutory limit of cost to put a wooden vessel in condition for service. It has been found, however, that the engines built for the Nantasket can be put in for less than the cost of repairs of the Kearsarge's en-gines, and this will be done. She is now at the Ports-mouth (N. H.) Navy Yard.

The condition of Daniel H. Bennett, the broker, who was murderously assaulted a week ago in his home, No. 130 1-2 Jewett-ave., Jersey City, was somewhat improved yesterday, but his physicians are not willing to say that he is out of danger. partially recovered his power of speech. Reporters were rigidly excluded from the house, and the only were rigidly excluded from the house, and the only information that could be obtained was from Dr. Wilkinson. The police did nothing in the case yes-terity and had no further information to impart. Hiram E. Bennett, the eldest son of the wounded broker, denied the statement that any unpleasantness existed in his father's family, or that his father ever lived away from the house on account of such a con-dition of things. He admitted that he had a theory as to the assault, but he did not care to say what it was.

LA BOURGOGNE IN A CYCLONE. The French steamship La Bourgogne, which arrived yesterday from Havre, experienced a terrific cyclone from the west on Wednesday. It lasted thirty-six hours. During the storm part of the ship's bridge was carried away and the boats were started from their fastenings. Yesterday morning a seaman fell from aloft overboard, striking the rail, and was lest.

TO LOOK FURTHER INTO NAVY YARD FRAUDS. The investigation of contract frauds and misappro priating Government property at the Navy Yard will he resumed by Paymaster Allen and Mr. Helskell to day. Several officers were examined last week, who explained the method of receiving and delivering supplies, and how it was possible for the clerks in the Department of Provisions and Clothing to take what they wanted without being detected.
